OUR TRUSTED SOURCE FOR PUBLIC HEALTH INFORMATION

**Did you get COVID or come in
contact with someone who did?**

Haven't been able to bounce back?

Still not feeling like yourself?

You may have Long COVID...

Now what??

Don't wait. Call your doctor and let them know if you have any of the symptoms on the back.

Have you had any of the following symptoms for a month or longer after a COVID infection or coming in contact with someone who had COVID?

Chest Pains

Prolonged Cough

Diarrhea

Fatigue (Extreme Tiredness)

Headaches

Nausea and Vomiting

Shortness of Breath

Dizziness

Trouble Tasting or Smelling

Difficulty Staying Focused/Brain Fog

You could have Long COVID symptoms even after a mild infection.

Your next best move is to work with a doctor you trust and who could take a closer look at your specific situation.

Need help finding a primary care doctor or an affordable local clinic?

Visit FindaHealthCenter.hrsa.gov and type in your zip code to find a health center near you.
